

Lincoln Trail

- The Lincoln Trail Workforce Investment Area (WIA) contains eight of Kentucky's 120 counties: Breckinridge, Grayson, Hardin, Larue, Marion, Meade, Nelson, and Washington. See Page 3 for a map of the WIAs. Hardin County is primarily urban, while Breckinridge and Washington Counties are 100% rural. In Lincoln Trail, 23.6% of workers are employed in the Government and Government Enterprises Industry, 9.4% in the Military. This is down from 49.4% and 36.5% respectively in 1970
- In Lincoln Trail
 - Over the past twenty years, 1980 through 2000, the population has grown by 11.7% to 243,202 persons versus 10.4% growth statewide.
 - Over the next twenty years, 2000 through 2020, the region is projected to grow by 17.9%, compared to 12.9% for the state (*Population Forecasts 2005-2030*, Kentucky Population Research, 2003).
 - 80.7% of the workforce-aged population (18-64) had a high school degree, including equivalent, or above in 2000. Lincoln Trail ranked fifth among the Kentucky WIAs (Census 2000).
 - 11.8% of persons aged 18-64 had a Bachelor's Degree or above, ranking eighth in the Commonwealth (Census 2000).
 - Employment is expected to grow from 77,814 to 95,898 between 1994 and 2005, a gain of 23.2%. The greatest number of job openings will be in the Operating, Fabricating and Labor Occupations (610), followed closely by Professional, Paraprofessional and Technical Occupations (595) and Marketing and Sales Occupations (485) (*Green River Area Occupational Outlook to 2005*, Kentucky Department for Employment Services (DES)).
 - Compared to Kentucky:
 - Full-time hourly workers are more likely to be offered health insurance and retirement benefits, however salaried workers are less likely to be offered these benefits (*Kentucky Labor Supply and Demand Surveys*, 2002).
 - Labor market participation is higher (Census 2000).
 - Unemployment in April 2003 was slightly higher (DES).
 - Underemployment is higher (*Kentucky Labor Supply and Demand Surveys*, 2002).
 - Poverty is lower (Census 2000).
- In three of the counties, over one-half of persons commuted to jobs outside the county in which they resided (Census 2000). Hardin County was a net importer of labor, receiving workers from 45 counties in Kentucky. The other counties in the Lincoln Trail WIA exported more labor than they imported. Over 60% of those who commuted out of the WIA worked in Jefferson County.
- There are three post-secondary institutions in the Lincoln Trail region: Elizabethtown Community College, Elizabethtown Technical College, and Saint Catherine College. Following is a list of the top majors for 2001/2002 graduates by institution and degree level. There are also a number of colleges located within fifty miles of Lincoln Trail,

these include the University of Louisville, which helps train and supply the Lincoln Trail workforce.

- Elizabethtown Community College
 - Associate: Liberal Arts and Sciences – 158, Total – 291.
- Elizabethtown Technical College
 - Associate: Medical Radiologic Technology/Technician – 17, Total - 61.
- Saint Catherine College
 - Associate: Liberal Arts and Sciences – 46, Total – 98.

Kentucky's Workforce Investment Areas (WIAs) and Area Development Districts (ADDs)

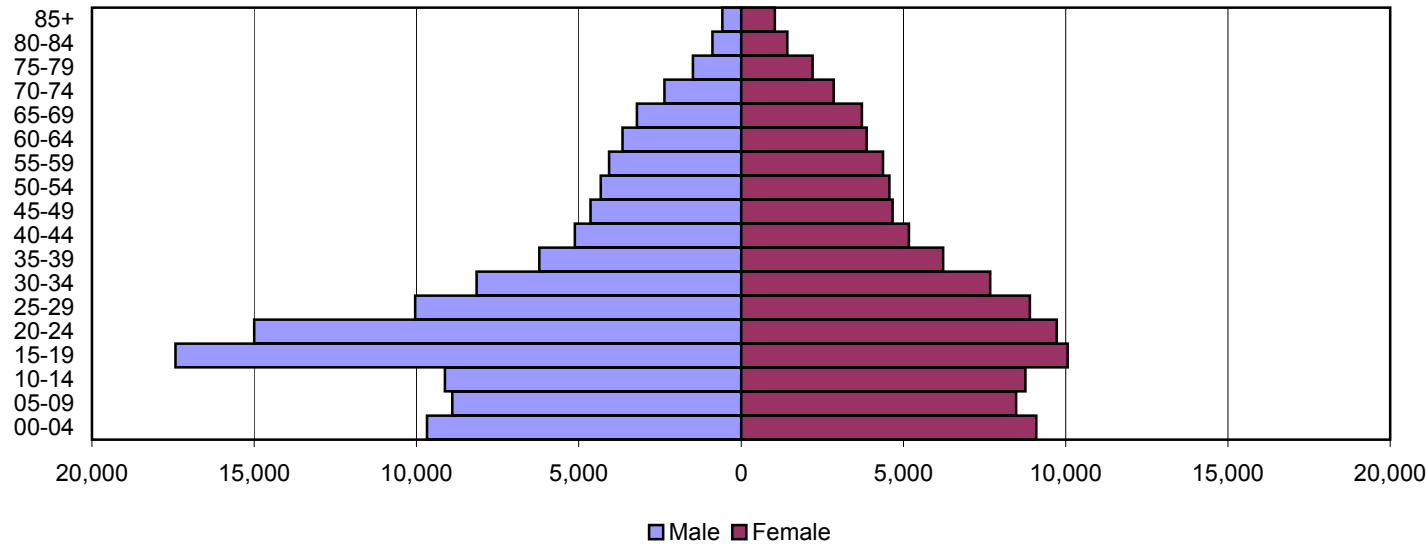

Population

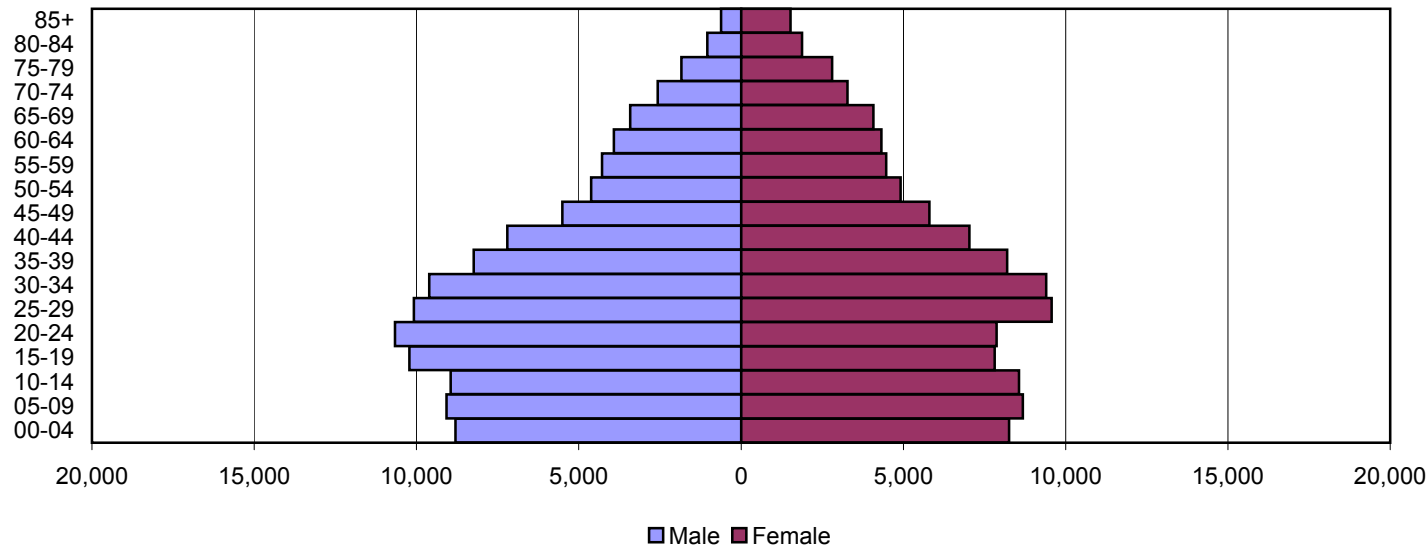

- The Lincoln Trail WIA had a population of 217,666 in 1980. By 2000, the number of persons had grown by 11.7% to 243,202 (1980, 2000 Census). This growth was slightly above average; Kentucky's population increased by 10.4% during this time period.
- Population forecasts developed in 2003 by Kentucky Population Research and the Kentucky State Data Center at the University of Louisville project that the region will experience 17.9% growth over the next twenty years, to 286,633 persons in 2020.
- Lincoln Trail is not currently experiencing an aging of its population, but it is experiencing a middle-aging. In 1980, 9.1% of Lincoln Trail residents were over the age of 65; in 2000, this had increased to 11.2%. Few persons turned 65 from 1995 through 2000 or will turn 65 from 2000 through 2010, as there was a birth dearth during the Great Depression and World War II, which began in 1929 and ended with the start of the Baby Boom in 1946. After 2010, Baby Boomers will start turning 65 and by 2020, 14.5% of the Lincoln Trail WIA is projected to be 65 or older.
- Between 1900 and 2000, Kentucky's population nearly doubled from 2,147,174 to 4,041,769; however, the number of children 0-14 rose by only two percent, from 809,142 to 824,640, resulting in a fundamental change in the age structure of Kentucky's population.
- Over the past twenty years, there has been a significant reduction in the total number of personnel at Fort Knox, particularly among active-duty soldiers. Total active-duty military personnel fell from over 17,451 to 12,122 between FY1984 and FY2000, a 31 percent drop. Total civilian employment at Fort Knox fell from 4,534 in 1984 to 3,734 in 2000. In 2002, there were 9,434 military and 3,257 civilian personnel.

Educational Attainment

- In 2000, Kentucky surpassed the national average for the percent of those aged 25-34 who had completed high school (84.2% vs. 83.9%). In Lincoln Trail, 87.2% of those aged 25-34 had a high school degree or equivalent.
- In the Lincoln Trail WIA, 80.7% of the workforce-aged population (18-64) had a high school degree, including equivalent, or above in 2000.
- 11.8% of Lincoln Trail residents aged 18-64 had a Bachelor's Degree or above, compared to 16.7% of Kentuckians.

Kentucky	6.4%	14.6%	34.7%	22.2%	5.3%	10.4%	6.4%

- The percentage of persons with a high school degree is increasing in Lincoln Trail. 87.2% of those aged 25-34 had a high school degree in 2000, while 48.5% of those aged 65+ had a high school degree or equivalent. (As the Census is taken in April, most 18 and some 19 year olds are still in, and thus, have not completed high school, which is reflected in the 73.8% of 18-24 year olds completing high school).
- Women in Kentucky are better-educated than men, though for those 45 and older men are more likely to have a Bachelor's Degree or above than women. The same is true for Lincoln Trail. Men over the age of 65 are also more likely to have a High School Degree and/or an Associate Degree than women 65 or older.
